Introduction

Paper II of the Prelims, or the CSE: CSAT, is often taken lightly by students due to its qualifying nature. However, given the recent trends, this paper also requires a reasonable level of preparation and has proven that CSAT is the game-changer in qualifying prelims. Thus, we designed this 100 Days Foundation Program to develop sound conceptual clarity and encourage you to practice consistently.

Irrespective of your previous performance in competitive examinations, we lay a strong foundation for basics and help you understand the concepts logically rather than through formulas.

Above all, we provide the courage, confidence, and hope needed to ace the CSE : CSAT exam.
